MEMORANDUM FOR: CRS
DDO
NIO
OCI
OER
OS
OTR

25X

SUBJECT: Visit to CIA by Junior FSO
Political/Economic Officers

1. The Foreign Service Institute has accepted the proposal outlined in the memorandum addressed to Michael Yohn, dated February 10, a copy of which was sent to you previously. The visit will take place the afternoon of Tuesday, April 8, 1975.
2. Attached is a schedule of presentations.
3. The group will have heard the regular OTR briefing on CIA, and the IC Staff brief on the interface between the Foreign Service and the Intelligence Community. Our fundamental purpose now is to personalize contacts with these officers who will be assigned as political and economic reporters, giving them a sense of interest and direct connection with Agency consumers at the Washington end who will be following their reporting, and with intelligence colleagues at missions overseas. In OER and OCI we hope that after a brief outline of how the respective offices operate, members of the group can meet with representatives of the geographic offices or country desks for face-to-face contact. Some but probably not all the FSOs will know what their specific assignments will be, so that it should be worthwhile to encourage exchange of names and phone numbers for follow-up briefings.

4. The undersigned will act as general coordinator for this session. If we generate a response sufficiently affirmative to encourage FSI to continue such visits as a normal part of the Junior Officer Course, OTR will manage future iterations.
